9. ☐ Other _____.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: "Tension" is read as a "longitudinal deformation of an elastic body", Random House College Dictionary, 1978. As such, patent documents to an enclosed torsion bar are not readable on this claimed feature. The references of record fail to suggest or disclose the use of a tailgate enclosed tension member connected to multiple support members as claimed. The closest reference of record to Brown, US 3,009,732, uses only a single support member and thus is not readable on and does not suggest the claimed multiple support members of the claimed kit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dennis H. Pedder whose telephone number is (703) 308-2178. The examiner can normally be reached on 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn D. Dayoan can be reached on (703) 308-3102. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
